## Time for a Caretaker Government to Save Zimbabwe

By Ruth Memeza Ncube, ZAPU Deputy Secretary General

As I witness Zimbabwe's economic decline due to looting and mismanagement, I appeal to the leaders' remaining humanity. I urge them to develop love for their people, humility, and the courage to step down. A caretaker government with a fresh structure and new faces could bring much-needed normalcy.

I call upon skilled and competent Zimbabweans worldwide to get involved personally. Silence and aloofness make us complicit in the status quo. Let's draw inspiration from our national anthem:

"Blessed be the land of Zimbabwe... We praise our heroes' sacrifice, And vow to defend our liberty."

Let's honor our heroes' legacy by demanding change. To those sitting on the fence, I say it's time to act. Let's lift our hearts and voices with pride and joy, united in our quest for a better Zimbabwe. It's time for a change; it's time for action.
